9th Grade Unit #1: Self-Evaluation

- 1) Name 2 important or interesting things you learned in the 1st science unit.

- 2) What do you feel that you have done well for this first unit of study?

- 3) What would you like to improve in the next unit of study? (Examples: turn in more work on time, study more, pay attention in class more, etc.)

- 4) Reflect on your long term and short term goals. (Check your goal's essay) Do you feel like you are making progress to reach your goals? Explain.

- 5) If you are having trouble reaching your goals, what can you do better?

- 6) What was the most useful activity in this unit?

- 7) Think about yourself as a learner. What does the teacher do that helps you?

- 8) If you could pick one thing (watching a science video, creating a poster, making up a science song, problem-solving, inquiry experiment) to do next unit, what do you think would help you understand the content the best? Why?
