Graduation / Diploma Information

The goal of the Peninsula School District is to offer its exchange students a sound educational program and exciting cultural experience. The normal sequence for meeting Washington State graduation requirements requires four years of study. Exchange students are not likely to have taken the classes required for Washington State graduation requirements. Therefore a foreign exchange student should not expect to receive a high school diploma. A senior student who successfully completes his/her studies will be allowed to participate in graduation ceremonies, but will receive a Certificate of Attendance, not a diploma.

I understand that a Washington State high school diploma is awarded only upon successful completion of requirements. I understand that the normal sequence for meeting these requirements is four years and that I will not meet them during my one-year exchange. I accept the condition that if I am a senior student who successfully completes the year of study, I will be allowed to participate in graduation ceremonies and will receive a CERTIFICATE of ATTENDANCE, not a high school diploma.

Traffic Safety Education

Peninsula School District offers a three-phase Traffic Safety Education Program: classroom, simulators and behind-the-wheel instruction. During the semester a student spends about 78 hours in the classroom, 12 hours in the simulator and 4 hours behind-the-wheel driving. It is important that these three phases be integrated. For a student to do well in the behind-the-wheel phase, the student must receive additional driving time to master the skills. This is where the host parent is involved. If you take your student out and allow him/her to practice driving, you will greatly increase the student's driving skills. It is recommended that a student drive an additional 10 - 15 hours with the host parent. Some students require more time, and some require less. Before the exchange student and host parent do any of the above, it is important that the student has a driver's permit and the host parent's insurance company has been notified. Some insurance companies may not accept exchange students, others treat them the same as any other member of the family. Some companies impose a fee for coverage under a permit, while others charge only after the license has been earned. It is important to realize that the exchange student may not be allowed to participate in the Traffic Safety Education Program. It will only be by permission of the parent, host family, and insurance company.

I understand the above conditions of the Traffic Safety Education Program and understand that my son/daughter may not be allowed to participate.
